Mixer alternatives for cartridges

General information on technically approved mixers and dispensers for cartridge application of 2-part adhesives

1 TECHNICALLY APPROVED SYSTEMS

The tables below list the static mixers and dispensers that have been technically approved for each cartridge type of 2-part adhesives. The lists are not exhaustive: Mixers / dispensers that are not listed may be used, provided that adequate preliminary tests are carried out to verify their suitability with the corresponding cartridge system. The indicated mixers are verified for cartridge applications only. For support on mixers for application out of bulk packaging, contact the System Engineering Department of Sika Industry.
