CERTIFICAT DE ACREDITARE
ON 068

CERTIFICATE OF CONSTANCY OF PERFORMANCE

1833-CPR-0027

In compliance with Regulation (EU) No 305/2011 of the European Parliament and of the Council of 9 March 2011 (the Construction Products Regulation or CPR), this certificate applies to the construction product:

ELASTOMERIC BEARING

Manufactured in natural rubber NR named „TORO LUX” by the manufacturer which can be with or without belt in compound labeled chloroprene rubber as „FM 316030” or natural rubber „FM 116029” with or without belt, protected by a cover of chloroprene rubber „CR 316030”

Intended use: for use in building and civil engineering where requirements on individual bearings are critical.

Construction product parameters: Elastomeric bearing manufactured in natural rubber NR named „TORO LUX” by the manufacturer which can be with or without belt in compound labeled chloroprene rubber as „FM 316030” or natural rubber „FM 116029” with or without belt, protected by a cover of chloroprene rubber „CR 316030” and with performances presented in the addendum (1 pag.), an integral part of this certificate.

Placed on the market under the name or trade mark of:

FREYSSINET INTERNATIONAL ET CIE

280 avenue Napoleon Bonaparte – CS 60002, 92506 RUEIL MALMAISON, FRANCE

and produced in the manufacturing plant(s):

FREYSSINET PRODUCTS COMPANY

Detailed in Annex (1 pag.)

This certificate attests that all provisions concerning the assessment and verification of constancy of performance described in Annex ZA of the standard(s)

EN 1337-3:2005

under system 1 for the performance set out in this certificate applied and that the factory production control conducted by the manufacturer is assessed to ensure the

constancy of performance of the construction product.

This certificate was first issued on: 30.10.2015 and is valid as long as the conditions stipulated on verso are satisfied, and will remain valid as long as neither the harmonised standard, the construction product, the AVCP methods nor the manufacturing conditions in the plant are modified significantly, unless suspended or withdrawn by the notified product certification body.

Date: 13.11.2019

TECHNICAL MANAGER INCERTRANS-OC

Eng. Nicoleta IONESCU

The body of assessment and verification of performance constancy INCERTRANS-OC of the product <ELASTOMERIC BEARING manufactured in natural rubber NR named „TORO LUX” by the manufacturer which can be with or without belt in compound labeled chloroprene rubber as „FM 316030” or natural rubber „FM 116029” with or without belt, protected by a cover of chloroprene rubber „CR 316030”> used in construction, reserves itself the right to maintain, suspend or withdraw the validity of this certificate, identified under the no. 1833-CPR-0027, as long as the manufacturer FREYSSINET INTERNATIONAL ET CIE applies the test methods and/or factory production control requirements included in the harmonised standard, used to assess the performances of the declared essential characteristics, do not change, and the construction product, and the manufacturing conditions in the plant are not modified significantly, unless suspended or withdrawn by the product certification body.

Surveillance stages of the certificate validity:

Authorized signature

 (name, surname, position in Certification Body)

Valid until: 13.11.2021

Authorized signature

(name, surname, position in Certification Body)

Valid until:

Surveillance Stage I A
 Scheduled until 13.11.2020

Surveillance Stage II
 Scheduled until 13.11.2021

Surveillance Stage III
 Scheduled until 13.11.2022

Authorized signature

(name, surname, position in Certification Body)

Valid until:

Certificate History

Review	Description	Date issued	Number of the replaced certificate
0	Initial Certificate	30.10.2015	---
1	Change of the company name	25.01.2017	1833-CPR-0027 (issued on 30.10.2015)
2	Removal of CE marking reference	09.06.2017	1833-CPR-0027 (issued on 25.01.2017)
3	Recertification	13.11.2019	1833-CPR-0027M

Declaration of performance and product marking

In the conditions and terms required to maintain performance characteristics declared, the manufacturers shall draw up a declaration of performance of the product and may legally apply the CE mark followed by the identification number of the certification body INCERTRANS OC-1833, fulfilling as well the provisions of Regulation (EU) 305/2011-Annex III: Statement of Performance.

Addendum to the certificate of constancy of performance 1833-CPR-0027
ELASTOMERIC BEARING Manufactured in natural rubber NR named „TORO LUX” by the manufacturer which can be with or without belt in compound labeled chloroprene rubber as „FM 316030” or natural rubber „FM 116029” with or without belt, protected by a cover of chloroprene rubber „CR 316030”
Construction product parameters – CPP Laminated elastomeric bearings with a minimum operating temperature of - 40°C and maximum operating temperature of + 50°C (and for short periods up to + 70°). Shear modulus of elastomer is G= 0.9 MPa. The characteristic of this elastomeric bearing is that he is provided with various devices for fixing or restriction of movement directions. Elastomeric bearings manufactured in natural rubber NR named „TORO LUX” by the manufacturer by the manufacturer which can be with or without belt in compound labeled chloroprene rubber as „FM 316030” or natural rubber „FM 116029” with or without belt, protected by a cover of chloroprene rubber „CR 316030”, with dimensions in plan less or equal to the scope of euronorm EN 1337-3:2005. The dimensions in plan is less or equal with the scope of euronorm EN 1337-3:2005. The laminated elastomeric bearings are according with the table 2 of euronorm EN 1337-3:2005; type A – B – C – D – E and F.
