Warranty application for Dow performance warranty
V.I.P Weatherseal system

Submission of this application does not constitute issuance of a warranty, approval of the project, approval of the design, or acceptance of the installation. Any warranty shall arise only upon Dow's issuance of a separate written warranty executed by Dow.

Dow reserves the right, in its sole discretion, to approve or reject any application, require additional testing or documentation, require corrective measures, conduct site inspections, or impose additional conditions prior to issuance of any warranty.

Products:

☐ DOWSIL™ 756 SMS Silicone Building Sealant
☐ DOWSIL™ 790 Silicone Building Sealant
☐ DOWSIL™ 791 Silicone Weatherproofing Sealant
☐ DOWSIL™ 795 Silicone Building Sealant
☐ DOWSIL™ 995 Silicone Structural Sealant
☐ DOWSIL™ 123 Silicone Seal
☐ DOWSIL™ ALLGUARD Elastomeric Coating

V.I.P. Warranty Requirements:

☐ Approval from Dow's Regional Sales Director
☐ Copy of the Contractor's Workmanship Warranty is provided to Dow (3 year minimum).
☐ For new projects, if substrates are not listed as approved in the Dow Surface Preparation guide, (which is available in published and electronic forms), then substrates must be tested/evaluated by Dow on project representative samples.
☐ For remedial or renovation projects, prior to the start of the project, the Independent Consultant must confirm the on-site field adhesion testing meets Dow requirements.
☐ Field adhesion testing must be made by an independent consultant, documented, retained and submitted to Dow upon written request as outlined in the standard field adhesion test procedure in the Dow Construction Sealants Technical Manual (Americas).
☐ Building owner retains documentation.

Project identification

Project name/Age _____
Address _____
City/State/Zip _____
Project owner _____

Name of building owner on the warranty:

Company _____
Address _____

Product**	Color	*Quantity

** If DOWSIL™ ALLGUARD Elastomeric Coating or DOWSIL™ ALLGUARD Primer was used, you are required to list the Total Square Footage and amounts (gals. or pails) used.

When the form is completed, email this form and other documents to your regional Dow sales representative.

DISCLAIMER OF PROFESSIONAL SERVICES. Users of this document acknowledge and agree that Dow is not providing architectural, engineering, façade consulting, waterproofing consulting, code compliance, constructability, or other professional services. Dow assumes no responsibility for the adequacy, completeness, or performance of any design, specifications, engineering calculations, wind-load analysis, joint design, substrate selection, façade assembly, water-management system, or testing protocol supplied or used by any project participant. No review, comment, testing, recommendation, or approval by Dow shall relieve the architect, engineer, consultant, contractor, applicator, owner, or any other party from responsibility for project design, code compliance, substrate conditions, compatibility of materials, installation methods, sequencing, maintenance, or overall building-envelope performance.

LIMITATION OF LIABILITY. IN NO EVENT SHALL DOW BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL, PUNITIVE, EXEMPLARY, OR LOST-PROFIT DAMAGES, INCLUDING WITHOUT LIMITATION LOSS OF USE, LOSS OF REVENUE, BUSINESS INTERRUPTION, WATER DAMAGE, MOLD DAMAGE, DIMINUTION IN VALUE, OR COSTS OF REMEDIATION. Dow's sole obligations and the exclusive remedies available to the warranty recipient shall be strictly limited to those remedies expressly identified in the final written warranty issued by Dow.

DISCLAIMER OF IMPLIED WARRANTIES. EXCEPT AS EXPRESSLY STATED IN A SEPARATE WRITTEN WARRANTY EXECUTED BY DOW, DOW DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, OR PERFORMANCE.

INDEPENDENT CONSULTANT REQUIREMENTS. Field adhesion testing and substrate evaluations shall be conducted by an independent qualified consultant experienced in building envelope and sealant-system evaluation. The consultant shall maintain records, photographs, testing data, reports, and related documentation for not less than ten (10) years and shall provide such documentation to Dow upon written request. Dow reserves the right to reject testing results, require additional testing, or require retesting if substrate conditions, materials, environmental conditions, or installation methods change.

CONTRACTOR CERTIFICATION. The undersigned contractor/applicator certifies that all DOWSIL™ products covered by this application were installed in accordance with Dow published technical literature, approved project specifications, applicable industry standards, and manufacturer recommendations. The contractor further certifies that no substitute products or unapproved materials were used within the designated weather seal applications unless expressly approved in writing by Dow.

Users of this document acknowledge and agree that Dow is not providing architectural, engineering, façade consulting, waterproofing, code compliance, constructability review, or other professional services. Dow assumes no responsibility for, and users are not relying upon Dow for, any project design, specifications, requirements (including windload), engineering analyses, shop drawings, materials, samples, design elements, testing, installation methods, code compliance, or the adequacy, accuracy, or completeness of the same, supplied or used by any warranty recipient or user of Dow products or services. Any review, comment, testing, recommendation, or approval by Dow is solely for purposes of potential warranty issuance and shall not be construed as an assumption of responsibility for project design, engineering, construction, workmanship, or overall building-envelope performance. Dow products are warranted only as expressly set forth in a separate written warranty executed by Dow.
